

Tiger Adjustable Trolley Plain Trolley – APT, Geared Trolley – AGT

Smaller minimum curve ratios may be available – contact us for details

Main Features

- Range from 1.0t to 10.0t
- Fitted with a screw spindle which allows lockable adjustment to the various flange sizes within its capacity
- The anti-drop plates design ensures extra safety and prevents damage to wheels when contacting end rail stoppers
- Wheels run on sealed bearings for smoother rolling with less effort and maintenance
- Powder coated universal wheels suit both tapered and flat flange beams
- Locking device with high clamping force
- Operating temperature of -40°C to +80°C (temperature range of -60°C to +80°C available as an option)
- The 5:1 factor of safety allows for use with manual or powered hoists

Our high quality, heavy-duty, easy to adjust trolleys allow you to suspend a lifting appliance or load and easily transport it along the length of a beam.

These units meet and exceed all the requirements within BS EN 13157: 2004+A1:2009 and AS1418.2.

Certification:

Each unit comes fully certified with a test certificate or an EC Declaration of Conformity stating compliance with the essential health and safety requirements of the Machinery Directive 2006/42/EC.

Derations to apply for using at angles away from the vertical:

If you need a wider beam range or have specific headroom requirements please contact us for bespoke solutions
