

Tiger Low Headroom Combination Chain Block & Trolley

Model No. LHCG

With optional locking device

Corrosion or
spark resistant
versions
available

Main Features

- Very low headroom
- Range from 1.0t to 10.0t
- Ideal for locations where headroom is limited
- Operating temperature of -40°C to +80°C (temperature range of -60°C to +80°C available as an option)
- Can be chained to any height of lift to meet your exact requirements
- Chain carrier available
- Corrosion or spark resistant versions available
- Available with load limiter
- Available with beam locking device
- Powder coated universal wheels suit both tapered and flat flange beams
- These units meet and exceed all the requirements within BS EN 13157: 2004+A1:2009 and AS1418.2.

Smaller minimum curve
ratios may be available –
contact us for details

With optional
chain carrier

Universal
wheels

Certification:

Each unit comes fully certified with a test certificate or an EC Declaration of Conformity stating compliance with the essential health and safety requirements of the Machinery Directive 2006/42/EC.

Standard geared trolley hand chain length - 2.5m. We can change the length to suit your requirements.

Standard height of lift (HOL) of chain block - 3m. We can change this to suit your requirements.

D is the standard track width range. Allow 5mm gap between the wheel flange and beam. Please contact us for track widths outside of this range.

F is the maximum beam flange thickness.

Our innovation, your safety

Standard Product

With Locking Device – outside of curve

With Locking Device – inside of curve

LHCG

with locking device - LHCG-K
